

**ELEMENTARY LEARNING
GRADES-K**
i-Ready Reading & Mathematics
(Student & Parent)

The i-Ready Diagnostic is a diagnostic assessment that provides a picture of student learning that matches their unique learning needs.

Recommended weekly time spent on i-Ready "My Path Lessons" is 180 minutes per subject per week.

Using iReady at Home:

When students log into the iReady application (instructions below), they will be able to select:

- x Reading or Mathematics, and they will take the diagnostic assessment :

Based upon your child's iReady diagnostic test results, they will be assigned "My Path Lessons" that match their unique learning needs.

- x We recommend that you complete the mathematics assessment first and the reading assessment second, but your child can use pencil and paper for the mathematics assessment but they may not use a calculator.
- x Please do not help your child with the content of the assessment if they are not assigned a "My Path Lesson" that is too difficult. Your child must take the assessment independently. It is okay for you to help them navigate through the program.
- x The assessment may need to be taken in multiple sessions. It is okay for your child to log out of iReady before completing their assessment. The next time they log into iReady the diagnostic assessment will continue where they left off.
- x Your child's classroom teacher will be monitoring their progress on the diagnostic assessment and as they progress through the "My Path Lessons." If necessary, your child's teacher may assign additional lessons based upon your child's needs:

[How do I log in?](#)

[From a Computer](#)

Go to the Charlotte County Public Schools Website and to the middle of the page to access the ClassLink login. Your child will need to log into ClassLink using their 88 number (student identification number) and password. Once you access ClassLink, find the iReady app and open it. As soon as you access the iReady app, child will be able to select:

- x Reading, Mathematics , or teacher assigned lessons if the teacher has manually assigned lessons:

Once students make their selection, they will take the iReady diagnostic. Once the diagnostic assessment is complete, students will have access to the online lessons that provide instruction and practice based upon the results of the test.

[From a CCPS issued Chromebook Remember to connect to your at home wireless/Wi-Fi connection](#)

The CCPS Launchpad screen will appear. Your child will need to log into the Launchpad using their 88 number (student identification number) and password. Next, select the iReady app from the selection of apps provided. As soon as you access the iReady app, your child will be able to choose

- x Reading, Mathematics , or teacher assigned lessons if the teacher has manually assigned lessons:

Once students make their selection, they will take the iReady diagnostic. Once the assessment is complete, students will have access to the online lessons that provide instruction and practice based upon the results of the test.

On an iPad/Android Device

Download the ClassLink app and the iReady app from the App Store. Open the ClassLink app first, select “Charlotte County SD,” and the CCPS Launchpad will appear. Your child will need to log into the Launchpad using their 88 number (student identification number) and password. Next, select the iReady app from the selection of apps provided. As soon as you access the iReady app, your child will be able to choose

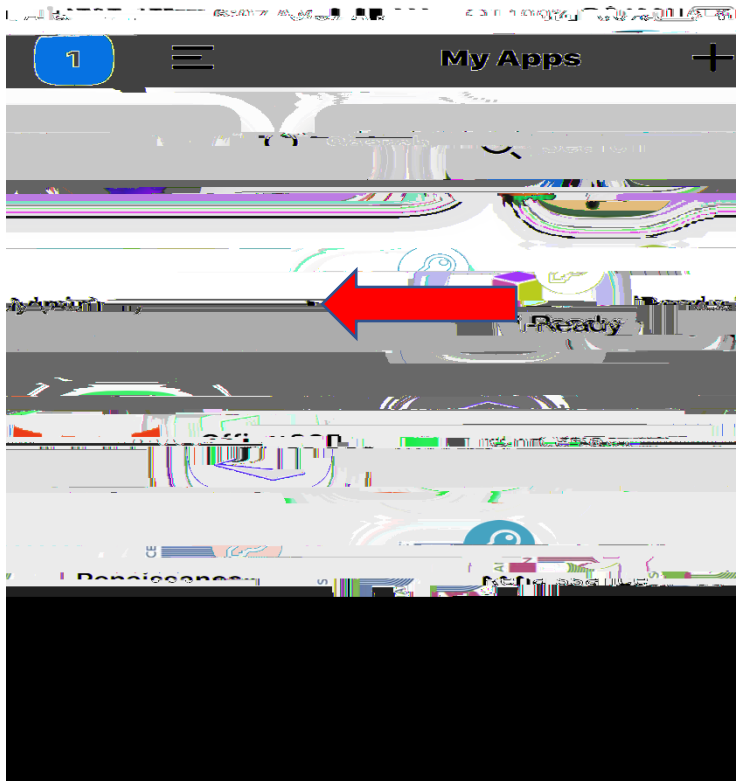

- x Reading, Mathematics , or teacher assigned lessons if the teacher has manually assigned lessons:

Once students make their selection they will take the iReady diagnostic. Once the diagnostic assessment is complete, students will have access to the online lessons that provide instruction and practice based upon the results of the test.

1. On your iPad/iPhone/ Android device download ClassLink LaunchPad from the App Store/Google Play.

2.

4. Once on the Launchpad, click on the “Ready” icon.

Paper-Based At-Home Activity Packets

Mathematics and reading paper-based at-home activity lessons are available for grades Kindergarten through grade 8. These lessons offer multiple ways for your child to engage with learning during their time outside of school.

A link will be provided for grade-level At-Home Activity Packets for Reading and Mathematics .
